

Texas Public College Enrollment for Texas Public High School Graduates by Limited English Proficient (LEP) Status About the Data

	<p>Ever-LEP indicates that the high school graduate was designated as LEP at some time during his/her Texas public school enrollment.</p> <p>Never-LEP indicates that the high school graduate was not designated as LEP at any time during his/her Texas public school enrollment.</p>
<p>Regional Education Service Center (ESC) or Region</p>	<p>Texas is divided into 20 geographic regions that are served by regional Education Service Centers (ESCs). Education service center region denotes the region from which the school district receives educational services. This is not necessarily the service center assignment based upon geographic location, although in most cases they are the same.</p> <p>Infrequently, a school district will change from one service region to another, usually because the service center is closer or more conveniently located to the school district. In this case, when multiple years of data are presented in a report, the school district's data will be presented as part of the ESC that served the school district for a specific school year.</p>
