Notes: 1. The educational attainment categories represent the highest level of education attained. 2. The number employed is the count of individuals reported with wages by the Texas Workforce Commission (TWC), who were between the ages of 25 and 30 during the earnings year, and who were enrolled in the Texas public school system at some time during 7th through 12th grades. 3. College enrollment and graduation data include Texas public colleges and universities only.

Wages of Employed Texans Who Attended Texas Public Schools

2012 Top 15 Employment Sectors by Number of Employed Texans Age 25 to 30

Wages of Employed Texans Who Attended Texas Public Schools

Purpose	<p>This report provides information on the earnings of employed Texans, age 25 to 30, based on the highest level of educational attainment within the state of Texas. It shows median fourth quarter wages and number employed by employment industry sectors using North American Industry Classification System (NAICS) categories.</p> <p>Data in this report are reported at the statewide level.</p>
Data Source	<p>Data in this report come from the Texas Public Education Information Management System (PEIMS), the Texas Higher Education Coordinating Board (THECB), and the Texas P-16 Public Education Information Resource (TPEIR). For more information about THECB data, visit their website at http://www.thecb.state.tx.us/. Employment and quarterly earnings data are from the Texas Workforce Commission (TWC). For more information about the TWC data, visit their website at http://www.twc.state.tx.us/. For in-depth information on the Texas labor market, see the TWC's Tracer website at http://www.tracer2.com/.</p> <p>College enrollment and graduation data include Texas public colleges and universities only.</p>
Data Elements	
Employment Sector	<p>The North American Industry Classification System (NAICS) is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. NAICS industries are identified by a 6-digit code. In this report, the 6-digit code is rolled up to the standardized 2-digit code representing 21 broad industry sectors, including an 'Unknown' category.</p> <p>For in-depth information on the NAICS codes, see the United States Census Bureau, North American Industry Classification System website at http://www.census.gov/eos/www/naics/.</p>
Educational Attainment	<p>Educational attainment refers to the highest level of education attained in Texas public schools or colleges. For this report, education levels are grouped into the following six categories:</p>

Wages of Employed Texans Who Attended Texas Public Schools

	<p>Advanced Degree - consists of individuals who received an advanced degree, i.e., Master's or PhD from a Texas public college.</p> <p>Bachelor's Degree – consists of individuals who received a Bachelor's or Baccalaureate-level Certificate degree (from a Texas public 4-year college) but did not receive an advanced degree from a Texas public college.</p> <p>Associate's Degree – consists of individuals who received an Associate's degree from a Texas public college but did not receive a Bachelor's or advanced degree from a Texas public college.</p> <p>Some College – consists of individuals who attended either a Texas public four-year or two-year college but did not receive a degree from a Texas public college.</p> <p>High School Graduate – consists of individuals who graduated from a Texas public high school and did not attend or graduate from a Texas public college.</p> <p>Less than High School Diploma – consists of individuals who did not graduate from a Texas public high school and did not attend or graduate from a Texas public college or university.</p> <p>Note: Educational Attainment is based on the highest level of education in the Texas public school system. High school diplomas or any college degrees earned from private or out-of-state schools are not counted in the report.</p>
Earnings Year	Earnings year is the calendar year beginning January 1 and ending December 31.
Number Employed	The number employed includes individuals who have fourth quarter wages in the earnings year as reported by Texas Workforce Commission (TWC), are between 25 and 30 years of age during the earnings year, and who were enrolled in the Texas public school system at some time during 7 th through 12 th grades.

Wages of Employed Texans Who Attended Texas Public Schools

Median 4 th Quarter Wages	Median wages paid during the fourth quarter of the earnings year as reported to TWC.
Percentage Change in Median Wages	The percentage change in median fourth quarter wages is calculated as the median fourth quarter wages in the current earnings calendar year minus the median fourth quarter wages in the previous earnings calendar year divided by the median fourth quarter wages in the previous earnings calendar year.
Percentage Change in Number Employed	The percentage change in number employed is calculated as the number of employed individuals in the fourth quarter of the current calendar earnings year minus the number of employed individuals in the fourth quarter of the previous calendar earnings year divided by the number of individuals employed in the fourth quarter of the previous calendar earnings year.
