Notes: 1. The number of students that either met or did not meet the TAKS standard is a count of the students taking a course from a teacher who attended a teacher preparation program and the course is related to the TAKS assessment for a particular school year, grade, TAKS subject area and TAKS test language version. 2. Teachers who attended more than one preparation program were counted only once. Preparation programs were prioritized as Standard, Alternative, Post Baccalaureate, Out of State, and all other preparation programs grouped as "Other". 3. TAKS assessments include only students taking TAKS tests on the TAKS primary test administration dates. 4. The "Unknown" category is the number of students where no data relationship exists between the teachers and their students' performance on TAKS.

Number and Percentage of Students Meeting TAKS Standard by Teacher Preparation Program

Teacher Preparation Program			Number of Students						Percent of Students					
			Standard Program	Alternative Program	Post Baccalaureate	Out of State	Other	Unknown	Standard Program	Alternative Program	Post Baccalaureate	Out of State	Other	Unknown
Test Language	Test Subject	Met Standard												
English	Mathematics	Yes	71,239	42,821	13,968	10,050	2,797	78,341	71.8%	67.7%	68.8%	72.7%	62.8%	88.5%
		No	28,026	20,464	6,339	3,776	1,655	10,211	28.2%	32.3%	31.2%	27.3%	37.2%	11.5%
	English Language Arts	Yes	144,130	64,383	31,049	13,471	3,664	13,107	92.7%	90.7%	92.7%	93.4%	90.5%	75.2%
		No	11,337	6,593	2,439	958	384	4,326	7.3%	9.3%	7.3%	6.6%	9.5%	24.8%

Notes: 1. The number of students that either met or did not meet the TAKS standard is a count of the students taking a course from a teacher who attended a teacher preparation program and the course is related to the TAKS assessment for a particular school year, grade, TAKS subject area and TAKS test language version. 2. Teachers who attended more than one preparation program were counted only once. Preparation programs were prioritized as Standard, Alternative, Post Baccalaureate, Out of State, and all other preparation programs grouped as "Other". 3. TAKS assessments include only students taking TAKS tests on the TAKS primary test administration dates. 4. The "Unknown" category is the number of students where no data relationship exists between the teachers and their students' performance on TAKS.

Mathematics	2,405	1,435	484	298	172
English Language Arts	2,644	1,212	550	233	114

Notes: 1. Number of students is a count of the students taking a course from a teacher who attended a teacher preparation program and the course is related to the TAKS assessment for a particular school year, grade and TAKS subject area. 2. TAKS assessments include only students taking TAKS tests on the TAKS primary test administration dates. 3. The "Unknown" category is the number of students where no data relationship exists between the teachers and their students' performance on TAKS. 4. Teachers who attended more than one preparation program were counted only once. Preparation programs were prioritized as Standard, Alternative, Post Baccalaureate, Out of State, and all other preparation programs grouped as "Other". 5. Teachers who taught both mathematics and reading/English language arts are counted once in each subject.

TAKS Test Results for Texas Public School Students by Teacher Preparation Program

Purpose	<p>This report shows the relationship between teachers of record with active certifications employed in the Texas public school system and their students' performance on TAKS tests in mathematics or reading/English language arts (ELA). It displays the percent or count of Texas public school students that either met or did not meet the TAKS passing standard by teacher preparation program.</p> <p>Data in this report are reported at the statewide and region levels.</p> <p>For in-depth information on TAKS statewide participation and performance results, see the Texas Education Agency (TEA) Division of Student Assessment reports on TAKS assessment results at http://www.tea.state.tx.us/student.assessment/results/.</p> <p>For in-depth information on teacher preparation in the state of Texas, see the Texas Education Agency's homepage for educator preparation at http://www.tea.state.tx.us/index2.aspx?id=906&menu_id=2147483671&menu_id2=794.</p>
Data Source	<p>Data in this report come from the Texas Public Education Information Management System (PEIMS) and the Texas P-16 Public Education Information Resource (TPEIR). Only those students who took a TAKS, TAKS-LAT, or TAKS-Accommodated test version and took a mathematics and/or reading test on the TAKS primary test administration dates are included in this report.</p>
Data Elements	
Texas Assessment of Knowledge and Skills (TAKS)	<p>The primary statewide testing program implemented in 2003 was designed to measure the extent to which a student in grades 3-11 has learned and is able to apply the defined knowledge and skills at each tested grade level. A student must meet the standard on the Grade 11 exit-level TAKS test in order to receive a high school diploma from a Texas public high school.</p> <p>The TAKS testing program is being replaced by the State of Texas Assessments of Academic Readiness (STAAR) testing program. For more information on STAAR, the phase-out plan for TAKS and the phase-in plan for STAAR, visit the Texas Education Agency Student Assessment Division website http://www.tea.state.tx.us/student.assessment/.</p>

TAKS Test Results for Texas Public School Students by Teacher Preparation Program

TAKS Primary Test Administration	The primary test administration provides the results for all students who submitted an answer document the first time the test is administered for a particular subject, grade, and school year.
TAKS Test Subject	The subjects tested by TAKS include mathematics, reading, English language arts (ELA), social studies, science, and writing. All grade levels are not tested on all subjects. For more information, see the Texas Education Agency Student Assessment Division website http://www.tea.state.tx.us/student.assessment/ .
TAKS Test Language Version	TAKS test versions are administered in English and for grades 3-5 in Spanish. A student may take different language versions for different subjects. The English and Spanish versions of TAKS assess the same test objectives and Texas Essential Knowledge and Skills (TEKS) student expectations.
Met Standard	Met Standard in this report refers to the Panel Recommended category representing satisfactory academic achievement. Students in this category performed at a level that was at or above the state passing standard for that TAKS test.
Teacher of Record	Indicates that the teacher is responsible for the classroom, making the final decisions about the instruction delivered and the final outcomes for the students assigned to the class.
Teacher Preparation Program	Texas Public School teachers complete educator preparation through an Approved Educator Preparation Program . These programs are offered through colleges, universities, school districts, regional service centers, community colleges, and other entities. In this report, counts of students and teachers are shown for four preparation programs: Standard, Alternative, Post Baccalaureate, and Out of State. Undergraduates typically enroll in an approved program at the college or university they are attending. Alternative Certification Programs, which may or may not be associated with a university or college, have been established and approved for those who already hold a bachelor's degree. Post Baccalaureate programs are offered by colleges and universities for individuals who already hold a baccalaureate degree.
Number of Students	The number of students is a count of students that either met or did not meet the TAKS performance standard for mathematics or reading/ELA TAKS tests taken on the primary test administration dates for a particular school year, grade, TAKS subject area and TAKS test language version. The count includes only students taking a course from a teacher of record who attended a teacher preparation program and the

TAKS Test Results for Texas Public School Students by Teacher Preparation Program

	course is related to the TAKS assessment for a particular school year, grade, TAKS test language version and/or TAKS subject area. The "Unknown" teacher preparation program category is the number of students where no data relationship exists between the teachers and their students' performance on TAKS.
Percent of Students	The percent of students is calculated as the number of students who met or did not meet standard divided by the total number of students who took the test.
Number of Teachers	The number of teachers is a count of the teachers of record who attended a teacher preparation program and had an active certification during the school year shown on the report. The "Unknown" category is not applicable to "number of teachers". A particular teacher is counted in only one preparation program but may be counted more than once if he or she is the teacher of record for both mathematics and reading/ELA courses which are related to TAKS assessments. Preparation programs were prioritized as Standard, Alternative, Post Baccalaureate, Out of State, and all other preparation programs grouped as "Other". Teacher counts less than 5 are not shown on the report.
