

Big changes coming to the TPEIR website!

We're excited to announce a significant update to our website at TPEIR! We have transformed all our static reports into dynamic and interactive ones using Power BI. This upgrade enables users to adjust their selected filters seamlessly, eliminating the need to backtrack or reselect filters. Additionally, our new reports are highly interactive and more accessible in compliance with ADA standards, providing a richer user experience for all.

**New website will launch
December 13, 2024!**

TPEIR's new home page will offer an overview of student metrics across all levels from prekindergarten into the workforce.

Welcome to TPEIR

The Texas Public Education Information Resource (TPEIR) is a joint, cross-agency project website that provides reports and data on Texas educational topics and trends. Our reports combine multiple data sources to produce useful information about Texas public school students from PK through college and into the workforce. Teacher certification and school district staff reports are also available.

We value your feedback. Let us know how we're doing. If you have questions, comments, or suggestions, contact us.
